Dear All,

This has been a stressful time for many of you, both with caregiving responsibilities and work challenges. It is easy to neglect your health and well-being while focusing on the needs of others and dealing with uncertainty in the work environment.

CARE Services and Health Matters are offering a number of Stress Management classes this fall. If you have been relying on unhealthy coping strategies, please consider enrolling in one or more of these workshops. Please see page 3 of this newsletter for details.

The Elder Care Workshops being offered this fall include two new offerings: Financial Management of Elders, in September, and Fall Prevention in Older Adults in November. Both are intended to help you prepare for and prevent a crisis with your elder. Two other popular workshops, Older and Wiser: Basic Legal Knowledge for Living Well to the End, and Maintain Your Brain are being offered with you and your elder in mind. For more complete information, please see the flyer on page 4 of this newsletter.

If you would like to meet personally to discuss your elder care situation, or if you are interested in joining the Elder Care Support Group, please call CARE Services at 643-7754 to make a free, confidential appointment.

Please remember that it is essential that you take care of yourself while caring for others during these trying times.

Take care,

Maureen

10 TIPS
FOR FAMILY CAREGIVERS

1 Caregiving is a job and respite is your earned right. Reward yourself with respite breaks often.

2 Watch out for signs of depression, and don’t delay in getting professional help when you need it.

3 When people offer to help, accept the offer and suggest specific things that they can do.

4 Educate yourself about your loved one’s condition and how to communicate effectively with doctors.

5 There’s a difference between caring and doing. Be open to technologies and ideas that promote your loved one’s independence.

6 Trust your instincts. Most of the time they’ll lead you in the right direction.

7 Caregivers often do a lot of lifting, pushing, and pulling. Be good to your back.

8 Grieve for your losses, and then allow yourself to dream new dreams.

9 Seek support from other caregivers. There is great strength in knowing you are not alone.

10 Stand up for your rights as a caregiver and a citizen.
