

**Assignment of Benefits for Intercollegiate Athletic Insurance
Plan**

I understand that UC Berkeley's Intercollegiate Athletics Program purchases an excess sports accident insurance policy to help defray the cost of diagnosis and treatment for injuries incurred by student-athletes in the course of participation in the Intercollegiate Athletic activities, including scheduled games, official tournament games, practice sessions, or while traveling to and from games or practice sessions. This insurance plan is secondary to the athlete's primary health insurance coverage.

In order for the sports accident plan to pay claims on behalf of a student-athlete, the student-athlete must authorize the insurance carrier, Aetna Student Health, to provide payment for services to the health care provider.

I authorize payment of medical benefits to the physician or supplier of service.

Athlete's Name (Please Print) _____

Athlete's or Authorized Person's Signature _____ Date _____
